

THICOR END USER SOFTWARE LICENSE TERMS

SEQUENCHEL

These license terms are an agreement between Thicor Services (Or based on where you live, one of its affiliates) and you. Please read them. They apply to the software named above, which includes the media on which you received it, if any. The terms also apply to any Thicor

- updates,
- supplements
- Internet-based services, and
- support services

for this software, unless other terms accompany those items. If so, those terms apply.

BY ACCEPTING THIS AGREEMENT OR USING THE SOFTWARE, YOU ACCEPT THESE TERMS. IF YOU DO NOT ACCEPT AND COMPLY WITH THESE TERMS, YOU MAY NOT USE THE SOFTWARE OR ANY FEATURES OF IT.

We do not sell our software or your copy of it – We only license it. Under our license we grant you the right to install and run one copy on one computer for use by one person at a time, but only if you comply with all the terms of this agreement. The components of the software are licensed as a single unit. You may not separate or virtualize the components and install them on different computers under a single license.

Instance. You create an “Instance” of the software by executing the software’s setup or install procedure. You also create an instance of the software by duplicating an existing instance or by placing the software on a computer without using the installer. References to the “software” in this agreement include “instances” of the software.

Run an Instance. You “run an instance” of the software by loading it into memory and executing one or more of its instructions. Once running, an instance is considered to be running (whether or not its instructions continue to execute) until it is removed from memory.

Client Access License (CAL). Each CAL permits one user, using any device, to access instances of the software, whether it is installed on a local computer or on a server(share). You must acquire and assign a CAL to each user or (virtual) device that accesses your instances of the software directly or indirectly.

Your CALs permit access to your instances of earlier versions, but not later versions, of the server software. If you are accessing instances of an earlier version, you may also use CALs corresponding to that version. Thicor is not obligated to supply any prior or different versions or editions of the software to you.

Server Monitoring License (SML). Each SML allows for one Microsoft SQL Server® instance to be monitored by the software.

Scheduled tasks or jobs that run an instance of the software without user intervention are considered to be a user and require a license. Multiple scheduled tasks or jobs on a single server or computer that execute in sequence require only one license per server or computer. A schedule job license can be shared by an operator who uses Sequenchel solely to configure the scheduled jobs and monitoring.

Personal usage. If the software is used for personal, non-business and non-commercial purposes a license is not required. Without a license a popup will appear every time the software starts.

Product Keys. The software requires a product key to access it without a freeware popup appearing. You are responsible for the keys assigned to you. You may not share the keys with third parties. You may not use keys assigned to third parties.

.NET FRAMEWORK SOFTWARE. The software uses Microsoft® .NET Framework software. This software is part of Windows. The license terms for Windows apply to your use of the .NET Framework software.

Scope of license. The software is licensed, not sold. This agreement only gives you some rights to use the software. Thicor reserves all other rights. Unless applicable law gives you more rights despite this limitation, you may use the software only as expressly permitted in this agreement. In doing so, you must comply with any technical limitations in the software that only allow you to use it in certain ways. You may not

- work around any technical limitations in the software;
- reverse engineer, decompile or disassemble the software, except and only to the extent that applicable law expressly permits, despite this limitation;
- publish any altered version of the software, including any application programming interfaces included in the software, for others to copy;
- rent, lease or lend the software; or
- use the software for commercial software hosting services.

You also may not remove, minimize, block or modify any logos, trademarks, copyrights, digital watermarks, or other notices of Thicor or its suppliers that are included in the software, including any content made available to you through the software;

Rights to access the software on any device do not give you any right to implement Thicor patents or other Thicor intellectual property in software or devices that access that device.

LEGAL EFFECT. This agreement describes certain legal rights. You may have other rights under the laws of your state or country. You may also have rights with respect to the party from whom you acquired the software. This agreement does not change your rights under the laws of your state or country if the laws of your state or country do not permit it to do so.

LIMITATION ON AND EXCLUSION OF DAMAGES. YOU CAN RECOVER FROM THICOR AND ITS SUPPLIERS ONLY DIRECT DAMAGES UP TO THE AMOUNT YOU PAID FOR THE SOFTWARE. YOU CANNOT RECOVER ANY OTHER DAMAGES, INCLUDING CONSEQUENTIAL, LOST PROFITS, SPECIAL, INDIRECT OR INCIDENTAL DAMAGES.

This limitation applies to

- anything related to the software, services, content (including code) on third party Internet sites, or third party programs, and
- claims for breach of contract, breach of warranty, guarantee or condition, strict liability, negligence, or other tort to the extent permitted by applicable law.

It also applies even if

- repair, replacement or a refund for the software does not fully compensate you for any losses, or
- Thicor knew or should have known about the possibility of the damages.

Some countries do not allow the exclusion or limitation of incidental, consequential or other damages, so the above limitation or exclusion may not (fully) apply to you.

Transfer to a third party. Licenses cannot be transferred to a third party, even when the first holder of a license no longer uses the software.

Support Services. Thicor provides limited support services for properly licensed software. Any support provided by Thicor is a “best effort” support. Thicor assumes no result obligation and no rights can be derived from a failure of Thicor to solve your problem. Thicor also has no obligation to provide support on functionalities that the latest version of the software does not provide.

Removal of features and money back guarantee. The software can be legally tested for 30 days before acquiring a license. Thicor assumes that the software is tested and approved by the customer before purchase of licenses. There is no money back guarantee if the software is deemed unsatisfactory. If features are removed from the software and the user cannot continue to use the older version of the software, the user is eligible for a refund. If Thicor provides a refund, the licenses are revoked and the user is no longer permitted to use the software.

Thicor can change these terms at any time without notice. Any new version or update may have an updated license agreement. By updating the software and using it, you agree to the updated terms and agree that the old license agreement no longer applies.
